

Contracted Providers by Amount Received in FY09

FY09 SSPS Payments Data downloaded from FamLink on January 17, 2010.

This report excludes providers that received less than \$100,000 in FY09. This is a preliminary report. As of March 1st, Provider IDs will be linked directly to contracts in FamLink so that expenditures may be grouped by contract. Currently, providers with multiple service locations are identified under multiple Provider IDs in FamLink, and have been grouped by name for the purposes of this report. The Individual Family category includes both foster homes managed directly by the department, and those that cannot currently be linked through payment data to the private agency that manages them.

Payments made by invoice voucher (A-19), rather than SSPS are not included.
